

**British Society of Rheology**

**Undergraduate Research Summer Research Bursaries 2020**

**Application Form**

Name of student:

Name and post of supervisor:

Institution:

1) Please explain your reasons for applying for this undergraduate research opportunity.

What motivates you to undertake this placement and how will it shape or help you in your future studies and career aspirations? In your answer you may include relevant scientific interests, courses you have taken or planning to take and what inspired you to undertake research as an undergraduate.

(Max 300 words)

2) Please provide a summary of the research you will undertake for a non- expert audience.

In your answer you must provide a synopsis of the research problem, its context, significance and its potential impact. You may mention how the work will fill in existing gaps in literature.

(Max 300 words)

3) Please provide a summary of your expectations regarding the supervision and support you will receive from the host Institution.

You must discuss and agree this with your intended supervisor. Please state intended project dates.

(Max 250 words)
